WRITTEN NOTIFICATION

Several states have existing laws, or are considering passing legislation, which require submission of a written report following the verbal oil spill notification. Circumstances dictating written notification vary according to size, location and severity of the spill. Specific instructions for providing written notification to this state should be determined at the time of initial verbal notification.

State	Instruction	Address
California	The responsible party shall submit a post-spill review, including methods to review both the effectiveness of the contingency plan and the need for plan amendments. The review shall be submitted to the Administrator within 90 days following a spill.	Department of Fish & Game Office of Oil Spill Prevention and Response P.O. Box 944209 Sacramento, CA94244-2090

American Samoa (Pago Pago) USCG regulations require each vessel to have approval for all COTP Zones that the vessel will transit, operate or make a port call. If the Approval Letter or the Interim Operating Authorization (IOA) identifies American Samoa as "Not Authorized" then the vessel cannot transit, operate or call ports in the American Samoa. In order for a vessel to obtain authorization it must follow Alternative Planning Criteria (APC) in accordance with established guidance that includes a contract with a local OSRO to provide coverage in addition to the coverage afforded by either MSRC and/or NRC.

ALL VESSELS CALLING AMERICAN SAMOA MUST BE UNDER CONTRACT WITH A LOCAL OSRO.

NOTE : Master to provide a one week advance notice prior to arriving in port.

GUAM COTP ZONE (CONTINUED)

USCG regulations require each vessel to have approval for all COTP Zones that the vessel will transit, operate or make a port call. If the Approval Letter or the Interim Operating Authorization (IOA) does not list the Guam COTP Zone as "authorized" then the vessel cannot transit, operate or call ports in the Guam COTP Zone. In order for a vessel to obtain authorization it must follow Alternative Planning Criteria (APC) in accordance with established guidance that includes a contract with a local OSRO to provide coverage.

ALL VESSELS CALLING GUAM & CNMI MUST BE UNDER CONTRACT WITH A LOCAL OSRO.

NOTE: Master to provide a one week advance notice prior to arriving in port.

QUALIFIED INDIVIDUAL (Primary and Alternate): Please refer to *Section 5 "QI Contact Info"* Tab.

PRIMARY RESPONDERS:

Contracted OSRO as per Appendix B, pg. 4 for MM, W1, W2, and W3.

SOUTHEAST ALASKA COTP ZONE (continued)

USCG regulations require each vessel to have approval for all COTP Zones that the vessel will transit, operate or make a port call. If the Approval Letter or the Interim Operating Authorization (IOA) does not identify Southeast Alaska COTP Zone as "authorized" then the vessel cannot transit, operate or call ports in the Southeast Alaska COTP Zone. In order for a vessel to obtain authorization it must first contract with the local OSRO to provide coverage which supplements the coverage provided by MSRC and/or NRC.

TANK and **NONTANK** vessels must establish a contract/coverage with the local OSRO.

NOTE : Master to provide a one week advance notice prior to arriving in port.

SEAPRO	24 hours	+1 907-225-7002
	Fax	+1 907-247-1117
	Office	+1 907-225-7002
	Email	info@seapro.org

TANK vessels that intend to conduct multiple voyages or routinely operate in the Southeast Alaska COTP Zone must submit Alternate Planning Criteria in accordance with the guidelines established in [Marine Safety Information Bulletin \(MSIB\) 03-10](#).

WESTERN ALASKA COTP ZONE (continued)

USCG regulations require each vessel to have approval for all COTP Zones that the vessel will transit, operate or make a port call. If the Approval Letter or the Interim Operating Authorization (IOA) does not identify Western Alaska COTP Zone as "authorized" then the vessel cannot transit, operate or call ports in the Western Alaska COTP Zone. In order for a vessel to obtain authorization it must first enroll in Alternative Planning Criteria (APC) accepted by the USCG which affords the vessel access to oil spill response resources of the local OSRO listed below to supplement existing coverage provided by MSRC and/or NRC.

NOTE : Master to provide a one week advance notice prior transiting WAK COTP Zone.
